Already have an account? Login

To create an account, press the «Get started» button on the main page or use the “Register” button in the nav bar.

When you have pressed one of these, a registration menu will display for you to fill in the information asked for.

Once you have filled out all the fields and select “Register”, an account will be created for you, and you’ll be guided to the “Dashboard”.

Don't have an account? Register

If you have previously created an account, you can press “get started”, then at the bottom of the form, you will see “Already have an account? Login”. Press this to get to the log in page, where you will be asked to write your email address and password.

You can also use the “Login” button in the navigation bar.

Once logged in you will be redirected to the “Dashboard”.

Navigation Bar

Home

Our company logo also acts as a home button through the webpage, it will always be always available in the top left of the Navigation bar. When you click on it, you will be redirected back to the welcome page.

Dashboard

This is the logo for the “Dashboard” page, where you can see all your groups and friends.

Chat

This is the “Chat” logo, clicking on this will redirect you to the main chat page of the application.

Profile

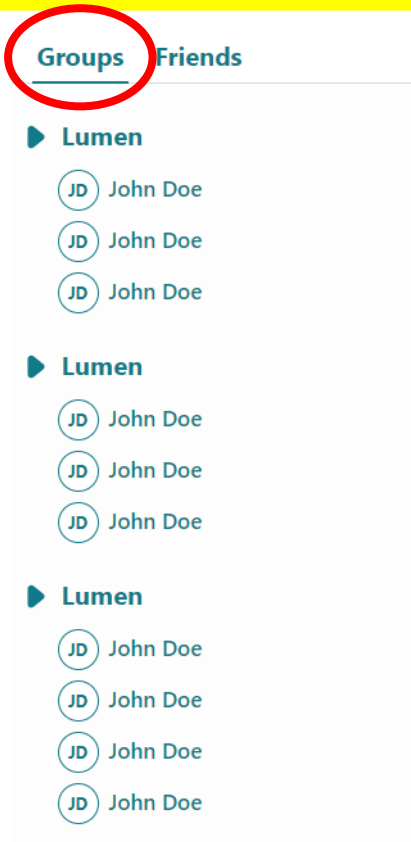

Where your initials are displayed is the button for our “Profile” page, selecting this navigates you to a page to customise/edit your account.

Log out

When logged into an account, the option to log out will always be available in the form of the button seen on the left.

Send a Message

When the “Chat” icon is clicked, you will be redirected to the Chat page. Here you will see a list of all the groups you are a part of.

You can select any group you are a part of, and the group’s chat will then open beside it, here you are able to send and read messages to and from other members of that selected group.

The same way the group chat functions, you can select any of your friends and this will open the chat with that person, allowing you to send and read messages with that friend.

Call/Video Call

If you already have created an account, you can press “get started”, then at the bottom of the form, you will see “Already have an account? Login”. Press this to get to the log in page, where you will be asked to write your email address and password.

You can also use the “Login” button in the navigation bar.

Recent Groups Friends

Search Search

John sent you a message
Hi, how are you?
Chat

Mary commented on your file
This looks good.
Chat

Allie sent you a message
Can you do that for me?
Chat

Jane sent you a message
Nice!
Chat

This is the first page you are directed to after creating an account or logging in. All your recent contacts/messages received are displayed here for you to see. If you want to respond quickly to these messages, you can select the “Chat” buttons inside the boxes which directs you straight to your messages with that individual person.

| | Hehe2 | |

Joined Groups
You have not joined any groups.

If you don’t want to reply to your recent messages and instead are looking for a specific group, you can browse the tabs at the top of the page and navigate to the “Groups” tab. Now you will see a list of all the groups you have created, as well as a list of groups you have joined.

You will also have a settings icon to edit your group, or to leave other people’s groups.

Dashboard

When you navigate to the “Friends” section of the dashboard, you will first see any friend requests you have pending from other users. Where you can simply reject or accept their request.

Below (similar to the “Groups” tab) you will be able to see a list of all your added friends.

The search engine on top of the dashboard page allows you to quickly find desired groups and/or friends, rather than having to scroll through the lists and find them manually.

The “plus” button on your dashboard page is where you can add friends or groups. When pressed, the page will display a box, divided into friends or groups. On top of the page there is a search engine making it easy for you to enter your friend’s email or the name of the group you want to join.

When you have pressed the settings icon for your groups (displayed above), you will be directed to the page shown. Here you can manage the members in the groups that you are the creator of. You can see requests from new users wishing to join your group, and subsequently accept or reject their request.

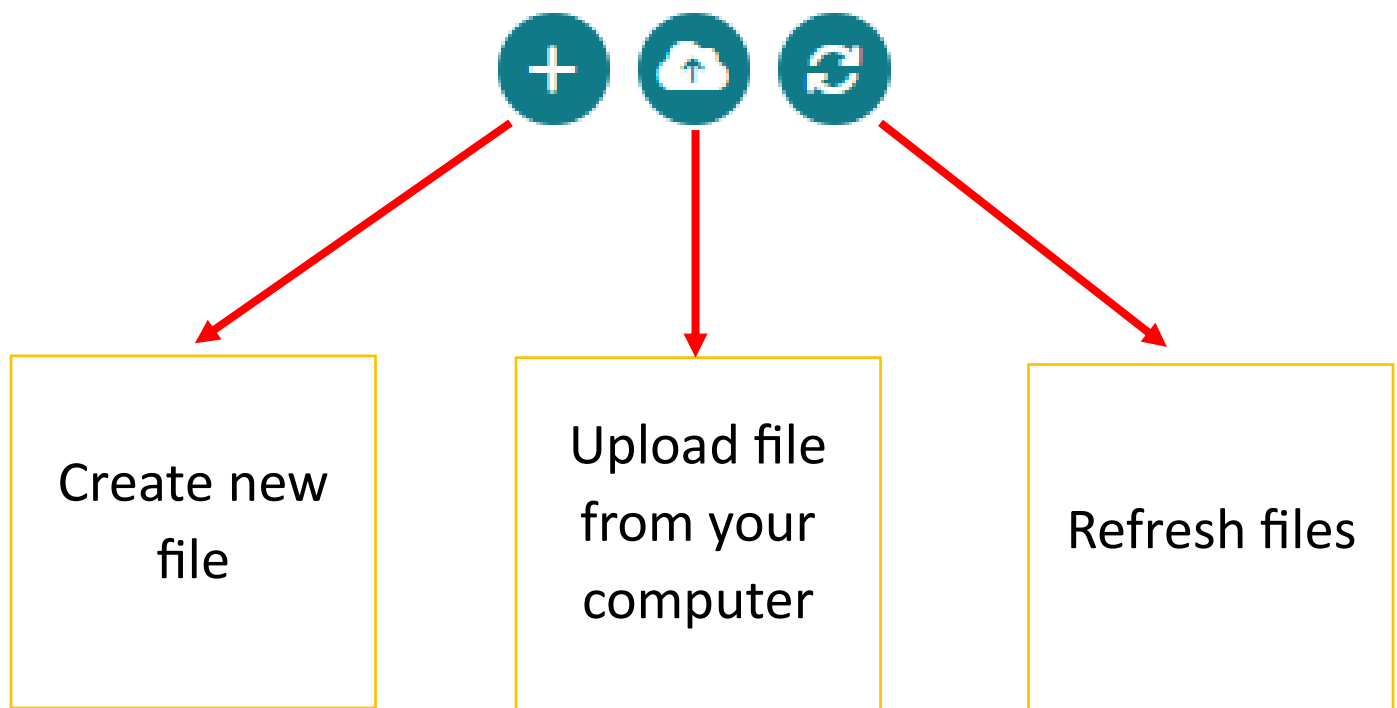

You can also remove existing members or chat with individual members with the “Remove” and “Chat” icons located on the right-hand side.

File System

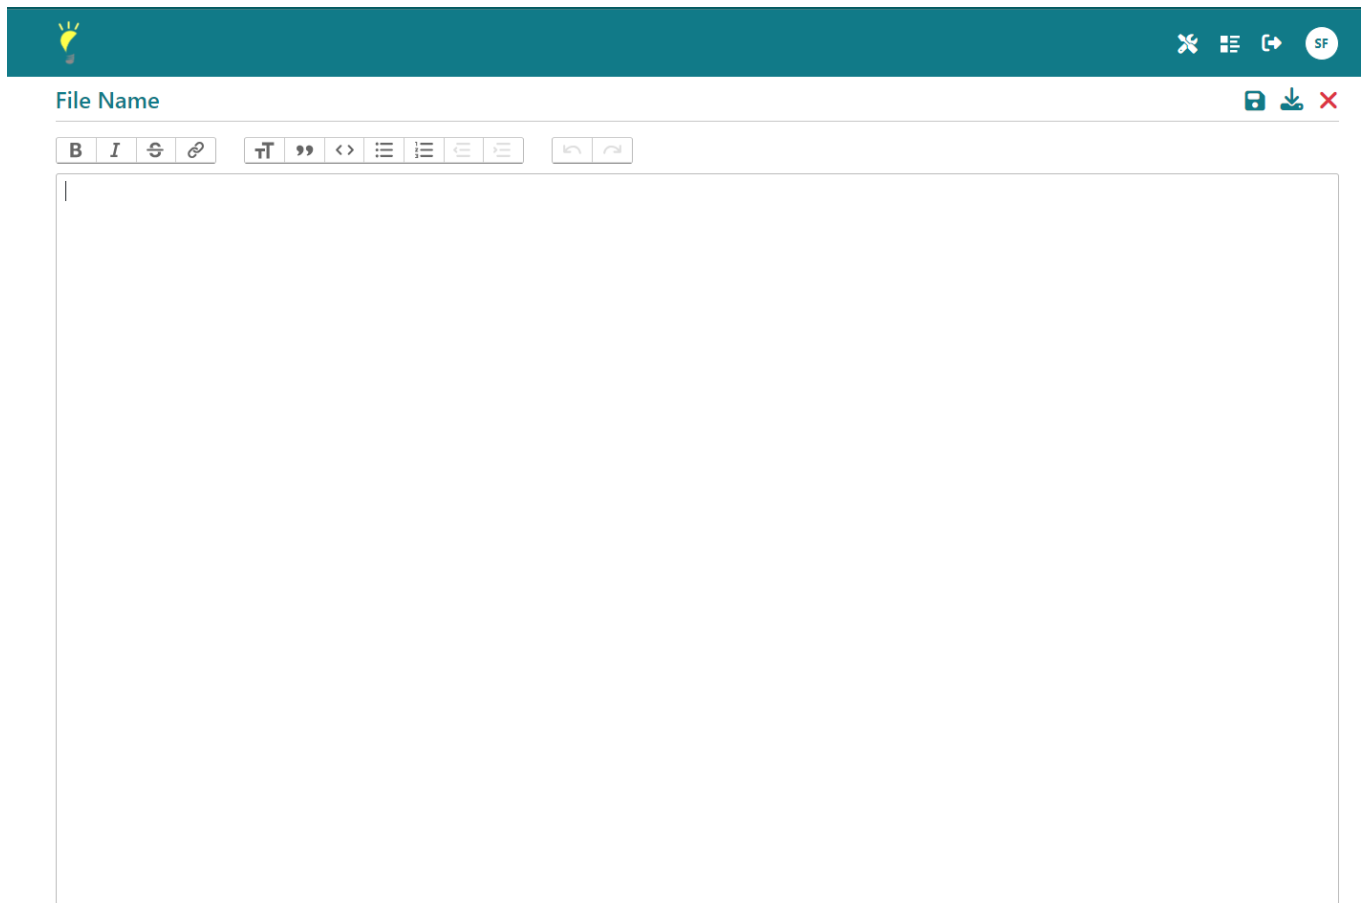

When you have navigated to the “Chat” page and selected the user/group you wish to speak with, at the top you will see the company name “Lumen”, followed by the icons for “Chat” and “File”. Here you can navigate to our file system.

Once you click on the “File” icon, you will be shown a list of all the files shared between you and this person/group. Aswell as three icons at the top which are described below.

File System

You can open these files and edit them as you please. You have all your typical file editing options at the top such as “Bold” or “Italics”, but besides this you have options to save the file or download it onto your system. If you wish you can also delete this file, but this will do so for both you and whoever you share it with.
